

KUNAL SAUKHIYA

Jaipur, Rajasthan, India

+91 7878820517 | hgkunal@gmail.com | linkedin.com/in/kunalsaukhiya05 | github.com/kunalsaukhiya05

Education

Swami Keshvanand Institute of Technology (SKIT)

Bachelor of Technology in Computer Science (CGPA: 8.8)

Sep. 2023 – Present

Jaipur, Rajasthan

Holy Angels English Sr. Sec School

Senior Secondary (12th)

July 2021 – May 2022

Mahwa, Rajasthan

Technical Skills

Languages: Python, C++, C, SQL,

ML & Data Libraries: Numpy, Pandas, Scikit-Learn, XGBoost, Random Forest

Computer Vision: OpenCV, MediaPipe

Visualization: Matplotlib, Seaborn

Database: MySQL, Data Pipelines

Tools & Frameworks: Git, GitHub, Streamlit, Jupyter Notebook, VS Code

Projects

Salary Prediction Dashboard | *Python, Pandas, Streamlit, Scikit-Learn, XGBoost*

GitHub

- Built regression-based ML models using 20+ employee features for accurate salary prediction.
- Implemented data preprocessing pipeline and feature engineering to boost model accuracy.
- Created interactive Streamlit dashboard for real-time predictions and visual analytics.

Air Draw – Hand Gesture Drawing App | *Python, OpenCV, MediaPipe, NumPy*

GitHub

- Built a real-time computer vision app that tracks hand landmarks via MediaPipe to enable touchless drawing on screen using index finger movement.
- Implemented live video frame processing with OpenCV for finger-tip detection and stroke rendering at real-time frame rates.
- Designed canvas overlay logic with keypress-based controls for clearing and exiting the drawing session.

Experience

Celebal Technologies

Data Science Intern

May 2026 – Present

Jaipur, Rajasthan

- Working on real-world Data Science projects involving data preprocessing, feature engineering, and model building.
- Gaining hands-on experience with industry-relevant tools and datasets under mentorship of experienced professionals.
- Participating in guided learning sessions focused on building strong technical foundations in Data Science.

Cynbit Technologies

Machine Learning Intern

June 2025 – August 2025

Jaipur, Rajasthan

- Developed a salary prediction system using regression-based ML models on employee datasets with 20+ features.
- Performed data preprocessing and feature engineering to improve model performance and accuracy.
- Evaluated models using MAE and R^2 metrics, achieving R^2 score of 0.87.
- Built a web-based interface for real-time salary prediction and result visualization using Streamlit.

Extracurricular

- Solved 300+ coding problems on LeetCode and other Coding Platforms; strong foundation in DSA and algorithms.
- Ranked in top 30% nationwide in Flipkart Grid Challenge on Unstoppable platform.
- Zonal Round Coordinator for Eureka Startup Competition at SKIT Jaipur – managed 100+ participants and multiple startup pitches.
